REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

While it is known in the art to provide a method including the steps of stripping ammonia, hydrogen sulfide, and carbon dioxide from anaerobically digested liquid and raising the pH of the liquid (see, for example, US Pat No 5,651,890 to Trost), in the examiner's opinion, the prior art fails to teach or fairly suggest treating the stripped ammonia in a biofilter. The instant invention provides the benefits of reducing greenhouse gases and producing nitrogen-rich fertilizer while not requiring the use of additives to make the fertilizer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Terminal Disclaimer

2. The terminal disclaimer filed on May 18, 2006 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of 6,866,779 has been reviewed and is accepted. The terminal disclaimer has been recorded.
